

Gypsy Cigarettes

© 2012 John J. Freeman (BMI)

Gypsy woman come to dance
Said come on little boy and take my hand
Don't be shy and turn away, you'll see
Lose your sins in the full moonlight
Some gypsy smoke will do just right
Come on boy and make romance with me

She been smokin' them gypsy cigarettes
Waiting for a night of making gypsy love
She been smokin' them gypsy cigarettes
Gypsy call the night down from above

Gypsy woman, you move too fast
Tell me how long this dream will last
Before your gypsy lips start to fade away
How much time do you have to give
To the gypsy boy you're loving with
Before I have to beg for you to stay

She been smokin' them gypsy cigarettes
Waiting for a night of making gypsy love
She been smokin' them gypsy cigarettes
Gypsy call the night down from above

She took me high above to her gypsy fields
In the darkness she was showing me the way
She said open up your eyes boy, because this is real
I'm gonna turn you into a gypsy boy today

She been smokin' them gypsy cigarettes
Waiting for a night of making gypsy love
She been smokin' them gypsy cigarettes
Gypsy call the night down from above

She took me high above to her gypsy fields
In the darkness she was showing me the way
She said open up your eyes boy, because this is real
I'm gonna turn you into a gypsy boy today
